

WHY CHOOSE BLUPRYNT?

01 US-Trained Leadership

Our CEO holds an MEng in Construction Management from NYU. Every deliverable is reviewed against US standards before it ships.

02 Your Business Hours

We work your time zone, not ours. Real-time on WhatsApp, email, and calls — no 12-hour email lag.

03 40-60% Cost Advantage

Offshore delivery economics, US-grade quality. No hidden fees. No fixed headcount.

04 One Partner, Eight Services

Estimating, rebar shop drawings, slab edge, SOE takeoffs, and submittal coordination — one partner, one point of contact, one invoice.

CORE SERVICES

01 Concrete Takeoff & Estimation

02 Slab Edge & Dimensional Drawings

03 Rebar Shop Drawings

04 Support of Excavation Takeoffs

05 Submittal Coordination

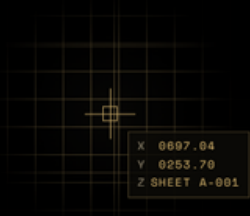

06 Safety Drawings – Safety Straps

07 Shoring and Formwork

08 Dry Wall – Framing – Estimation

PROVEN VALUE

COST ADVANTAGE

\$80,000

Typical annual savings vs. one US in-house estimator (loaded cost).

- ✓ Pay only for active scope, zero when quiet
- ✓ No benefits, no seat cost, no software licenses, no PTO
- ✓ Scale up for bid season, scale down between

OUR TEAM

12.5+ Years

Average team experience among our civil engineers & estimators.

- ✓ Aligned with US codes & drafting standards
- ✓ Led by an NYU MEng-trained leadership team
- ✓ Dedicated reviewers, not a rotating pool

FREE SAMPLE

48 Hrs

Get a complimentary takeoff or drawing set, turned around in two business days.

QA PASS RATE

99.5%

Of deliverables clear internal QA on the first review pass — no rework needed.

ACCURACY COMMITMENT

100%

Free corrections on any error found after delivery. No questions asked.
